

Built to upgrade quiet mind and progress clinical execution, the Optima MR360 Advance skillfully balances innovation, a wide cluster of clinical applications and refined work process abilities. With cutting edge highlights like Optical RF, the Needle Free Suite of applications, embedded coils, and a simple to-utilize interface, this system boosts profitability.

Benefits:

- The Optima MR360 Advance brings into parity the propelled MR stage you trust with the adaptability and proficiency you need
- Lifts clinical certainty with extraordinary 1.5T execution
- Builds persistent solace with new framework plan and the Needle-Free Suite of uses, intended to restrict the requirement for biopsy, differentiation and sedation.
- Improves efficiency through refined work process driven by Express loops a simple to utilize interface and patient solace highlights
- Upgrades clinical flexibility with a wide cluster of cutting edge clinical applications
- Diminishes complete expense of proprietorship through vitality effective innovation utilizes around 34 percent less vitality than past age frameworks
- Maintains a strategic distance from spontaneous downtime by recognizing administration issues before they happen

Features:

- A demonstrated, very homogeneous 1.5T magnet
- Optix RF for better signal clarity and signal intensity to acquire cleaner, crisper images
- Express loop innovation that decreases treatment of cumbersome curls between tests
- Effective 33/120 angles, new electronic structure and creative water-cooling for vitality productive task
- Prepared interface, an easy to understand control focus that upgrades examine parameters in less advances
- Progressed clinical programming applications, for example, Automated Ready Brain, MR Touch, IDEAL IQ, LAVA Flex, 3D ASL and so on.
- InSite OnWatch proactive innovation to help keep away from spontaneous downtime
